Professional Summary:

Senior Web Developer & UI/UX Designer with over 10 years of experience building custom web solutions, high-performance e-commerce sites, and integrated digital marketing campaigns. Skilled across web programming, web apps, API integration, responsive UI/UX design, and AI-ready digital strategies. Proven track record of optimizing user conversion rates and creating functional, versatile, and aesthetically polished websites that drive measurable revenue growth.

Work Experience:

EZMarketing — Web Designer

Mar 2020 - Apr 2026

- Developed custom, ground-up WordPress platforms for small businesses—guiding projects from initial discovery to launch to help emerging brands build traction and drive revenue.
- Engineered scalable web solutions, multi-site e-commerce platforms, and integrated marketing initiatives—including email campaigns and live Zoom webinars—driving over \$50K in monthly revenue.
- Expanded WordPress functionality through custom theme and plugin development, combining ACF, WooCommerce, LearnDash, and advanced integrations to deliver flexible, requirement-driven websites.
- Resolved critical PHP, ASP.NET, SQL, and WordPress errors, maintaining high database performance, minimal downtime, and continuous operational uptime for client platforms.

Income Store — Front-End Web Developer

Jun 2018 - Dec 2019

- Created dynamic JavaScript and PHP web apps, designed engaging link bait landing pages, and leveraged AWS to engineer custom internal monitoring UIs across a network of 2,000+ sites.
- Spearheaded CRO strategy by cross-coordinating design and optimization teams, running targeted A/B tests, and analyzing user behavior data to drive landing page conversions and lead generation.
- Served as UI/UX strategist and front-end developer for internal DevOps initiatives, designing custom user interfaces and building a tailored monitoring application that automated workflows and boosted team efficiency.
- Designed dynamic visual content—including interactive infographics, digital ads, custom email templates, blog graphics, and social assets—to maximize cross-platform audience engagement.

Weber Advertising & Marketing — Web Developer

Apr 2017 - Apr 2018

- Delivered custom web development and integrated digital/print advertising solutions for commercial agency clients to elevate usability and brand strategy.

- Managed version control and automated release pipelines via GitHub, collaborating directly with backend developers to diagnose and resolve critical server-side form processing errors.
- Produced print ads, signage, and digital web advertisements for local SMBs, combining visual branding with custom full-stack web development to elevate online and offline presence.

Additional Work Experience:

- Built strong client relationships and robust referral pipelines over two years at **MarketSource**, guiding customers through mobile and internet contract selections while ensuring high-satisfaction support.
- Crafted high-converting national print advertisements and promotional layouts over five years for **Clipper Magazine**, maintaining strict visual standards and client brand integrity.
- Managed shop inventory, forklift freight logistics, and custom fabrication for vinyl wraps, large-format prints, and commercial signage at **D.E. Gemmill** to support installation teams.
