Professional Summary:

Senior Web Developer & UI/UX Designer with over 10 years of experience building high-performance e-commerce platforms, custom web applications, and integrated digital marketing campaigns. Proficient across full-stack development (PHP, JavaScript, ASP.NET, React), DevOps, and end-to-end graphic design. Proven track record of optimizing conversion rates and architecting web solutions that generate measurable revenue growth.

Work Experience:

EZMarketing — Web Designer

Mar 2020 - Apr 2026

- Engineered tailored WordPress platforms ground-up—from brief discovery meetings through custom design and full-stack development using ACF, LearnDash, and WooCommerce.
- Architected custom web solutions and multi-site e-commerce platforms generating \$50K+ in monthly revenue, leveraging modern stack technologies tailored to complex client requirements.
- Drove full-funnel client engagement and retention by designing custom email campaigns and orchestrating live interactive webinars.
- Diagnosed and resolved critical PHP, ASP.NET, SQL, and WordPress errors, maintaining high database performance, minimal downtime, and continuous operational uptime for client platforms.

Income Store — Front-End Web Developer

Jun 2018 - Dec 2019

- Led design across 2,000+ websites and served as Front-End Developer on the Link Bait team, engineering animated landing pages and interactive web apps to boost engagement.
- Spearheaded CRO strategy by cross-coordinating design and optimization teams, running targeted A/B tests, and analyzing user behavior data to drive landing page conversions and lead generation.
- Served as UI/UX Strategist, Lead Designer, and Front-End Developer for internal DevOps initiatives, automating cross-functional workflows to eliminate manual processes and boost efficiency.
- Created interactive infographics, digital ad sets, email templates, and social media graphics to maximize user engagement and cross-platform interaction.

Weber Advertising & Marketing — Web Developer

Apr 2017 - Apr 2018

- Delivered custom web development and integrated digital/print advertising solutions for commercial agency clients to elevate usability and brand strategy.
- Managed version control and automated release pipelines via GitHub, collaborating directly with backend developers to diagnose and resolve critical server-side form processing errors.
- Designed print ads, signage, and digital web advertisements for local SMBs, combining visual branding with custom full-stack web development to elevate online and offline presence.

Additional Work History:

Marketsource | Sales Representative | 2014 - 2017

- Persuaded customers to adopt long-term mobile and Xfinity service contracts, building a high-volume referral pipeline while delivering top-tier technical support and service.

Clipper Magazine | Graphic Designer | 2007 - 2013

- Produced print advertisements for national publication with strict accuracy proofing, while leveraging collaboration software platforms to streamline cross-team workflows.

D.E. Gemmill | Sign Shop Supervisor | 2006 - 2017

- Fabricated custom signage, vinyl wraps, and large-format prints, managing shop inventory and forklift freight logistics to support installation teams.
